'Universal' Thermo-Cell SAD IRONS

There is little use in telling any housewife about the drudgery of ironing. She knows more about it than the men who make the irons, and yet some housewives still continue to use the old-fashioned irons, with the hot handle, or the obsolete spring handle, which rattles loose and is likely at any time to drop a heavy iron on the foot.

The "Universal Thermo-cell Sad Iron" is a non-conducting space surrounding the top and side surfaces of the iron. Owing to its construction, the heat can only radiate through the bottom or ironing surface of the iron, the natural tendency of the heat to rise being prevented by the "Universal" Thermo-cell.

Before purchasing your irons, do not neglect to consider the "Universal Thermo-cell" first. The many advantages it gives to the housewife, its method of conducting heat to the point desired and its smoothness in "gliding" on the surface of the cloths, are certainly things worth considering when making your selection. Do not get the impression that they are expensive, for this is the wrong idea. A set like cut shown here will cost

\$2.25 a Set

"Universal Brand" goods bring happiness to every household.

Some three weeks ago we promised you for your Spring Shopping the largest and the best selected stock of Dress Goods in Washington County. After spending a part of last week in New York, we are home again with our first story strengthened. We now know just where we are at. Let us say right here that our last twenty years' shopping has never been quite as satisfactory as this last trip. We have new kinds, new prices. We know now what the ladies want, and it won't take them long to pass satisfactory judgment on our New Spring Merchandise. The following is only a brief summary of the newer kinds.

Wash Goods

Dress Goods

This means new Silks in all styles and grades. New Wool Dress Goods and new materials for coats and suits.

A nice Whitecord Serge in gray, navy, tan and black at 50c per yard.

We have paid an advance of from two to five cents per yard on our all wool 36-inch Serges. Better buy now, before we feel obliged to change our prices.

We have a very large range of new colors and weaves in our new line of Whitecords, to sell for \$1.50. Very wide; a small quantity makes a coat or dress.

New Silks; a very large line of Silks in mosselines, plain and figured, small checks and stripes. One lot of Silk Fouillard, all new styles, on our bargain tables at 49c per yard.

New lot of yard-wide Messalines, beauties, to sell at \$1.00. If you are not finding all the colors that you want, come here.

Ask to see new Silk Warped Ratine at 85c and new Jacquard Silks at \$1.19; cut any length required, same price.

Spring Suit Models

If you are interested in the early Spring Suits you should make it a point to see the new models which we have just received. The new models are entirely different and yet the plain tailored effect of many of them will appeal to you as models that will be very popular.

Plain serges, whitecords, wool bedfords and novelty goods will be the popular cloths used. Many of the coats are made with a rounding curve or cutaway effect. The skirts are made a little different, and in a number of very neat designs.

In the Misses' Junior Suits we have a number of good models in serges and whitecords that are very good. The prices range from \$10.00 to \$20.00 each.

In the ladies' models at \$25.00 are a number of early samples in Suits that are different, in blues, browns, tans and novelties. These are Suit models that are very attractive.

At \$30.00 are a few Suit models that are made up in the novelty cloths, and fine wide wale serges that are some of the best values we ever put out.

At from \$15.00 to \$20.00 are a number of new plain serge models that are very good.

Ladies' New Coats

We now have a very good display of the new Coat models that are entirely different than last season. The Johnny Coat that was popular this winter is the Coat that will have the big run this season. These are Coats that are made forty-five inches long and many of them have the round and cutaway fronts, and you will find among these early spring models some of the most nobby models you have seen in a long time.

The checks and broken plaids will be very good, in fact there are a quantity of extra good models in the cloths.

The light colored cloths, with the fine pencil and fancy woven stripes will be very popular.

The wool bedford cords will be made up in the plain tailored Coats that are lined throughout. These will be models that will be leaders.

The long Coat will be used in the plain tailored models, and we can give you some of these values in Coats at \$12.00 and \$15.00.

If you want to see some fine early spring Coat models, come in and see this line.

We attended in New York last week an Embroidery Sale held by the largest Foreign and Domestic Embroidery House in this country. They are changing locations and this sale was a close-out of their stock. We will begin the last of this week to arrange for you the largest Embroidery Sale that you have ever attended. Many kinds will have prices nearly cut in two. These Embroideries will be displayed before the sale, so that all can have an equal chance to see what they want most of this very large variety.
